

## About Us

Ag. Focus is a company dedicated to spreading the love, and joys of agriculture. We want to continue to spread positivity within the agriculture industry, as we are constantly seeing and feeling the negativity.

We hope to continue to bridge the gap between consumers and producers. Created by farmers and ranchers, for farmers and ranchers.

## Our Services

Through an app on your phone or an Online webpage, we offer an interactive and exciting new way to connect with those in the industry. Through Ag. Focus, you will be able to share photos, messages and connect with fellow agriculturalists. With easy to use options and applications, this app is meant for anyone looking to get involved.

*“Created by  
farmers and  
ranchers, for  
farmers and  
ranchers.”*

Working towards bridging the  
gap between farmers and the  
public
